PROJECT

401 - 409 East Michigan
Kalamazoo, Michigan

CONTACT

Nelson Nave Architect and Arcus Foundation

SCOPE

Perform detailed, hands-on evaluation of historic brick and Lake Superior red sandstone facade. Develop recommendations for restoration. Work with architect to identify sources of replacement stone. Develop details and technical specifications for paint removal, stone removal and replacement, and brick masonry restoration. Analyze interior historic framing and develop designs for modification and strengthening as required. Perform structural engineering for new 4-story office building addition at north side of site. Provide project management and technical assistance during construction phase for paint removal and masonry restoration.

CONSTRUCTION COST

\$4,000,000

DATE

2003 - 2007
