PROJECT

Langley Covered Bridge
Centerville, Michigan

CLIENT

St. Joseph County Road Commission and Architecture + Design

SCOPE

Evaluate 125-year-old heavy timber covered bridge, one of the last still in use in Michigan. Perform structural analysis of timber trusses, develop repair and strengthening recommendations for highway loadings. Address maintenance of concrete abutments and structural steel substructure. Develop plans and specifications for repair.

DATE

2005 - 2007
